Overview

In this presentation, we will:

- Review types of projects we support
- How to apply for each type of project
- Review how a project is evaluated.

tale'awtxw aboriginal capital corporation

The First Step...

The first step is to contact your Aboriginal Capital Corporation and:

- Find out if your project is a good fit for our programs
- Find out if there is any funding/financing available
- Discuss what is required for your application
- Find out what the process is for a project like yours
- Discuss timelines for the application process, business planning and evaluation process.

What We Look For

The goals of our programs are to:

To increase the number of viable businesses owned and controlled by Aboriginal Canadians, and to provide a supportive business environment.

To cultivate a culture of entrepreneurship in the Aboriginal community and to improve access to business opportunities.

To enhance access to capital for Aboriginal businesses that have difficulty accessing conventional commercial financing.

What We Look For

1. The First Nation or Economic Development Corporation has the capacity to start/acquire or expand their business:
 - Ability to invest (at least 15% of their own cash equity)
 - Ability to access commercial financing
 - Ability to manage the business.
2. The proposed business will be commercially viable.
3. The expansion or marketing project will create measurable new benefits such as additional revenues, new markets, or new employment opportunities.
4. For BEP projects, there is a demonstrated need – the project could not proceed without BEP support.
5. Qualifications and experience relating the applicant to the business.
6. Benefits to the community.
